Blueprint Seminar Series – IP Communications

54.2 cm

142.7 cm

As you make your company's communications decisions, you want a solution that is flexible, secure, easy to manage, scalable, and cost-effective. Now, with Cisco IP Communications solutions you can have it all — on a converged data, voice and video network.

One network will simplify how you and your employees communicate with customers, vendors, and with each other. Dramatic increases in employee productivity and efficiency can and will positively affect your company's bottom line.

- **Lowers cost:** Control expenses while increasing operational efficiency
- **Secures:** Protects network from unwanted intrusions and misuse
- **Connects:** Fast, simple remote access to all data for offsite employees and partners
- **Integrates:** Voice, e-mail, chat, the Web and applications from your desktop phone

Event Agenda

Executive Overview (30 Minutes)
Break (15 Minutes)

Technical Break-out Sessions (15-20 Minutes)

IP Telephony and Voice Over IP
IP Communication Applications
Hosted IP Communications

The break-out sessions will be repeated three times concluding each time with a short break. You may attend as many break-out sessions as you like. Join our upcoming seminar to learn more about how you and your company can take advantage of implementing a Cisco IP Communication solution.

Reserve your seat now by contact at www.sasnetworksolutions.com or events@sasnetworksolutions.com today.
